NEWS RELEASE – COVID UPDATE

For immediate release: 11-15-2021 6:00 P.M.

PUBLIC HELP NEEDED!

Wrangell is experiencing unprecedented levels of positive COVID-19 cases. This past week total active cases have reached 38. Surrounding communities have also seen a spike in total active cases. The Wrangell EOC has been advised there are numerous close contacts associated with these active cases.

State of Alaska, Public Health is unable to keep up with contact tracing because of the high case count across the state. COVID-positive individuals are being requested to conduct their own contact tracing.

If you are advised by someone that you are a close contact, or you believe yourself to be a close contact of a COVID-positive individual, please quarantine and contact your healthcare provider to test as soon as possible.

Whether you are vaccinated or unvaccinated, PLEASE wear a mask in indoor settings outside the home.

All businesses are strongly encouraged to have employees that work with the public to wear a mask. It takes all of us to help stop the spread of COVID.
